

Day 1	23rd July 2015 (Moderation: Mr. Hans-Dieter Hegner, BMUB)
4:45 p.m.	<p>Get together (Refreshments featuring juice, coffee, tea and snacks will be provided)</p> <p>Welcoming participants Günther Hoffman, Director-General for Building, Construction Industry and Federal Buildings at the BMUB</p>
5 p.m. - 7 p.m.	<p>Brief Talks 1: Position of Alpine countries on building zero-energy buildings while ensuring high standards in the design of buildings</p> <p><u>Germany</u> Hans-Dieter Hegner (Bundesbauministerium BMUB, Berlin) <i>A new approach to energy in the building sector- the generation of "Efficiency Houses +"</i></p> <p><u>France</u> Florent Moretti (French Ministry of Housing and Territorial Equality) <i>Current French regulations on NZEBs and next steps</i></p> <p><u>Austria</u> Martin Ploß (Energieinstitut Vorarlberg, Dornbirn) <i>On the journey to nearly zero-energy buildings - achievement and constraints in Vorarlberg</i></p> <p><u>Italy</u> Roberto Lollini (EURAC research Institute for Renewable Energy, Bolzano) <i>Definition of nZEB and solution-sets/ Performance-based tender for public buildings</i></p> <p><u>Switzerland</u> Olivier Meile (Office fédéral de l'énergie OFEN Section Bâtiments, Bern) <i>Current questions and a brief report on actually build zero-energy buildings</i></p> <p><u>Club Arc Alpin e.V. (CAA)</u> Peter Büchel (Architekt HTL/sia und Energieberater) <i>Alpine huts – Passive House Standard: reasonable Limits (P. Büchel, H. Kreuzinger)</i></p>
7 p.m.	Open discussion and collection of topics
8 p.m.	<p>At the invitation of the BMUB: Joint Dinner at Olivi restaurant Meran</p>

Day 2 24th July 2015 (Moderation: Mr. Oliver Heiss, ByAK)	
9 a.m.	Welcoming participants Dr.in Madeleine Rohrer (town councilor local government Merano, since 2010 International Commission for the Protection of the Alps CIPRA)
9:10 a.m.	Collection of topics and summary of first day Oliver Heiss
9:20 a.m. -	Examples of best practices from the Alpine countries Architectural instruments and integrated concepts for zero-energy buildings in Alpine countries
11:15 a.m.	<p><u>Germany</u> Oliver Heiss (Bayerische Architektenkammer (ByAK), München) <i>Integrated concepts for zero-energy buildings - best practice examples for zero-energy buildings in the German Alpine region.</i></p> <p><u>France</u> Camille Patard (Cerema) <i>Feedback from zero energy buildings: 'PREBAT bâtiments démonstrateurs' and 'REX bâtiments performants' studies</i></p> <p><u>Austria</u> Martin Ploß (Energieinstitut Vorarlberg) <i>Public Buildings in Vorarlberg – pioneering in the sector of energy efficiency and ecology</i></p> <p><u>Italy</u> Arch. Johann Vonmetz (Kammer der Architekten Provinz Bozen / Architekturbüro arch.tv Trojer Vonmetz Architekten) <i>First zero energy building Italy: Primary School Lajen Ried, (finished in 2006)</i> Roberto Lollini (EURAC research Institute for Renewable Energy, Bolzano) <i>Building sustainability - The transnational Alpine project CABEE</i></p> <p><u>CIPRA</u> Jakob Dietachmair <i>Experience in sustainable building and refurbishment</i></p>
11:15 a.m.	Coffee break
11:45 a.m.	Open discussion on follow-up Summary and definition of key topics of conference in March 2016 (moderated by Hans-Dieter Hegner)
1 p.m.	End of Workshop
